

York Building Sign Program

Be Visible

No advertising medium is as cost effective as on-premise illuminated signs. You are missing a sure bet if there isn't at least one at your location, 24 hours a day, to tell your community that you are a York® Dealer. Constructed from rugged, solar grade polycarbonate plastic faces and strong aluminum cabinets, your sign will look smart for a long time to come. All signs meet standard building code requirements, are warranted and carry U.L. and union labels.

Be Versatile

Choose the best combination for your location. Several size options and mounting systems give you the flexibility you need to make your signs work for you.

Don't Forget Your Name

Your name is important! The imprint panels shown are with your dealer name applied in black vinyl letters at the factory, in large, readable letters. Be sure to specify your dealer name to be imprinted on your sign.

OUTDOOR SIGN PROGRAM

Introducing our Illuminated 24-Hour Salesman!

The Basic 3' x 6' York Sign

Mounting Kits

Sign mounting hardware is usually supplied by the sign installer. However, hardware kits may be obtained and are furnished at a cost as a convenience.

Kit A:

Swing mounting kit includes mast arm, lags, turn-buckles, cables & mast.

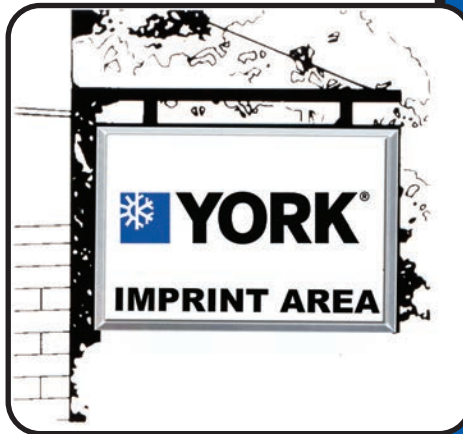

Exterior math plate for center-pole mountings included with center-pole mount signs.

NOTE: Order signs directly from Dualite Sales and Service Inc.

5' x 6' Sign

If you have a long name or if you want your name in large letters, this is the sign for you!

4' x 6' Sign

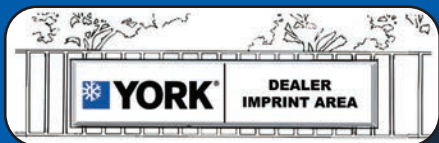

This is the most popular in the industry. Your name is imprinted in the 1ft. by 6ft. section at the bottom of the sign.

MODULAR PANEL SIGN

Perk up your outside area in a hurry with the Modular Panel System. You can have up to 66 square feet of prime advertising space when you use the YORK Logos at each end of the panel. There's plenty of room for your business name. (Available in wall mount configuration only.)

3' x 12' Sample

3' x 14' Sample

3' x 16' Sample

Letter Sizes & Amounts for Imprinting

Letter Size:

8", 6" & 4 1/2"

All imprints are calculated by the computer to fill the available area.

4' x 6' x 1/2" Sign:

1 Line available - Height of imprinted area is 5".

5' x 6' x 1/2" Sign:

2 Lines available - Height of imprinted area is 17".

The length of the imprint will determine the height - imprints should be brief and concise. We do not recommend area codes due to continuing changes.
